Skilled Trades Employment Opportunity for High School Graduating Seniors

Are you a graduating Senior wondering what you want to do after graduation?

If YES!!! Bekum America Corporation might have the answer for you.

Bekum America, a global leader in the design and manufacture of state-of-the-art extrusion blow molding machinery, seeks to hire a number of self-motivated graduating seniors who possess the desire to learn and pursue a career in the Skilled Trades at its manufacturing facility in Williamston Michigan.

Bekum offers the possibility of an award winning Apprenticeship Program which integrates on the job specialized training and development, together with offsite job related college level courses, paid by Bekum. Program graduates must earn 59 college credits (all class room and material expenses fully covered), and are required to work 8000 hours at Bekum in their structured program. Upon successful completion of the estimated 4-year program, graduates will be issued a Journeyworker's card by the US Department of Labor. Bekum's manufacturing skilled trades apprenticeship positions include:

- Machine Builders
- Machinists
- Electricians
- Mechatronics
- Welder / Steel Fabricators

Please review the attached information that details this exciting opportunity and if you or parents of graduating seniors have questions, please contact us at:

PLACE:	Bekum America Corporation

A Job + An Education = A Career

BEKUM AMERICA CORPORATION'S APPRENTICESHIP PROGRAM

In Partnership with Lansing Community College

Apprenticeship Office

Vision Statement:

The Lansing Community College Apprenticeship Office will be a primary resource for encouraging, supporting and connecting apprenticeship sponsoring companies and their apprentices to relevant related technical instruction along with identifying emerging occupations for possible new apprenticeship opportunities.

Mission Statement:

The Lansing Community College Apprenticeship Office seeks to provide personal support and guidance for sponsoring companies and their apprentices throughout their apprenticeship training ultimately enriching lives, our community and economic growth.

Apprenticeship Program

Registered apprenticeships, a structured training program, combine on-the-job, hands-on training at the work site with classroom instruction in technical, job-related subjects. This combination of learning methods gives apprentices both the skills and the knowledge they need to become successful in their chosen careers.

The apprenticeship can be sponsored by an individual employer, a group of employers or combinations of employers and unions. Lansing Community College **DOES NOT** sponsor apprenticeships but does provide the classroom training required.

Technical Careers Division
